

Pre – Pest control customer checklist

- If necessary, any cleaning must be completed **prior to the pest control treatment**, for example ceilings, walls & window frames (Otherwise you will be removing the product from the treated surface)
- Clear all floor areas of any children's Toys, all personal belongings to be put away or covered.
- All pets to be put outside for the day of the treatment, cat flaps locked, fish tanks to be covered & air pumps to turn off. Please notify your technician if you have aquatic animals or exterior fishponds.
- All bench tops must be cleared or covered, foodstuff & utensils to be put away.
- Toothbrushes, cosmetics, face cloths and toilet paper must be put away.
- All beds, pillows & leather lounge suites to be covered (use a bed sheet then launder).

Please note:

You will need to vacate the property, and only reenter 3-4 hours **after** the treatment is finished.

Upon returning immediately ventilate. Wipe down any bench tops, basins & wooden/vinyl floors.

Refrain from using any cleaning products on walls, ceilings and windowsills for 3 months.

Any questions please contact Tony Hatton 021-434-286
